

# Surveying & Mapping

DMK's Surveying and Mapping Division is recognized as one of the areas most reputable. Having been in business for over 30 years and performing thousands of survey projects in the private and public sector, DMK maintains one of the largest libraries of surveying records in Southwest Florida.

DMK has been selected as land surveying consultants to municipal clients such as Charlotte County, Charlotte County School Board, Sarasota County, School Board of Sarasota County, The City of Punta Gorda, Englewood Water District and The City of North Port as well as countless private clients. They recognize the advantages of retaining DMK as their surveyors for projects covering the broad range of scope one would expect from a complete surveying firm.

- Boundary Surveys-  
*Commercial & Residential*
- Topographic Surveys
- Tree & Wetland Location
- Subdivision & Condominium Platting
- Construction Layout
- Coastal Permitting Surveys
